## ABOUT ME

During my professional career I worked in several areas. One of my most enjoyable roles was being a graphic designer. This work was fuelling my creativity and fulfilling my desire for personal development. My other assignment required maintaining a company website using the Wordpress system. I found it very interesting. I can see my future in IT industry as I would be able to utilise my knowledge, creativity and thinking outside the box. My interests are closely aligned with my chosen profession and this will help me to excel in this field now and in the future.
